## SEMINAR CONCEPT

**This is “STUDENT HELP LINE” and I came here to focus our view on helping the needy.**

Q): What’s the purpose of introducing this team..?

In day-to-day life we came across many instances of poverty i.e.

- Lack of money for proper education.
- Lack of proper care to the orphans & handicaps.
- Discontinuity of valuable education due to other problems.

Effect of poverty on the children’s life:-

- Child Labour.
- Increased illegal activities.

CHILD LABOUR:-

In our daily life we have been seeing most of the children working in various localities, whose ages are insufficient to bare such a huge burden, yet they are doing so because, in order to meet their daily needs. It’s unbelievable that their earnings are not enough to meet their daily needs.

ILLEGAL ACTIVITIES:-

When family faces the problems of poverty, they are unable to complete the studies of their children and thus the child doesn’t gain the knowledge of doing the right things. As a result he enters in the field of doing the illegal things such as Robberies, killing others for the sake of money etc...

When we took the step of studying such children by paying their fees in the educational institutions, this sort of illegal things can also be minimized in this fabulous world.

NOW, Let me draw your attention towards the problems faced by the students during their education...

There are so many students, who are well talented in their educational matters. Even though they have the talent well-built, they are unable to reach their goal. This is happening so, due to lack of money and several other problems.

To work on these immortal problems and to overcome them, ORIGIN OF THE PROFESSIONAL'S BATCH "S.H.L" has taken place.

**AIMS & OBJECTIVES OF 'SHL':-**

- Our batch aimed to minimize the child labour,  
For this purpose, SHL includes the objective of minimizing the child labour in the way of joining the children in the educational institutions.  
It may or may not be possible to remove the child labour but, it's possible to minimize it to maximum extent, with your cooperation.
- By giving money to the students whose education is discontinued due to lack of money.
- By providing proper care to the orphans & handicaps in the way of supplying their requirements.
- Solving the problems which are faced by the students regarding their education.
- Donating the blood to the " Blood Banks" once in three months by the members who are interested in that.
- This team also acts against the problems of severe ragging which causes severe risk to the student's education.

**PROCESS (In what way SHL is going to work?):-**

SHL wish to collect the money from the students and at a particular date it will donate the money to the selected organization or selected individuals. Interested people can come along with SHL members at the time of donation.

In the certain orphan homes, the children get only food and shelter but they are not provided with proper books for education, proper clothes for wearing and several necessary articles such as towels, blankets.

If we donate the money for those particular things, they will think that there is someone to help us and thus they will lead their lives with full of confidence.

SHL makes the list of those particular candidates and made them to continue their education by paying their economical needs.

By performing this project, SHL can maintain unity and integrity among the students of different colleges.

Thus we are requesting you people to donate the money as you can. No matter how much money we are going to donate, because some people may be financially rich and some may be poor. Some students are interested in spending the money for enjoyment where as some others saves the money to buy certain things.

For example, if you donate at least one rupee per day it will be more than enough.

The other thing is,

Some of us get the doubt regarding the money i.e., For what purpose and where the money is spent for..? We assure you that this team shows the proofs clearly for each and every single rupee that is given by you.

We will maintain a proper record for all these particulars. And soon, we are going to launch our web address with your cooperation.

What's our request is,

Please, kindly cooperate with us for helping the needy and I request you to think for few minutes about them and I assure you that, you yourself voluntarily donate the money.

It's our duty to show minimum love towards them. Once you feel how it will be to you, if the money given by you makes at least single person to educate.

Definitely, it will be proud for us.

We assure that SHL members will work truly, sincerely, honestly, and lovingly for helping the needy

And, the final.....

***Our humble request is, to cooperate with us in serving the poor, helping the needy, and loving the orphans, handicaps.***

***This team also hopes that you people will bring it to the high position by popularizing it.***

**THANKING YOU VERY MUCH**
